4. SPECIFICHE GENERALI E CONDIZIONI DI FORNITURA

I sistemi dovranno essere nuovi e rispondere ai requisiti indicati. Non sono ammesse forniture di apparecchiature usate e ricondizionate a norma, versioni demo o simili. La rispondenza ai requisiti sarà verificata attraverso la documentazione prodotta in offerta e durante un'eventuale prova/visione.

Le Ditte partecipanti potranno proporre soluzioni che corrispondano in maniera equivalente ai requisiti richiesti; di ciò il concorrente dovrà fornire prova in sede di offerta.

Nel caso siano state introdotte innovazioni, il Fornitore è obbligato a darne tempestiva comunicazione all'Azienda e deve offrire l'attrezzatura innovata senza maggiori oneri. L'Azienda si riserva il diritto di valutare a proprio insindacabile giudizio se accettare le innovazioni migliorative offerte a parità di condizioni economiche o pretendere la consegna con le stesse caratteristiche dell'offerta (o comunque caratteristiche non inferiori).

Il soggetto aggiudicatario sarà responsabile dell'installazione posta a proprio carico, anche a seguito di eventuali prescrizioni e disposizioni dell'Azienda.

Il Fornitore è tenuto ad eseguire tutte le prestazioni in oggetto a perfetta regola d'arte, nel rispetto delle norme vigenti e secondo le condizioni, modalità, termini e prescrizioni indicate, pena risoluzione di diritto del contratto medesimo.

L'offerta si intende onnicomprensiva di eventuali costi, contributi, spese di trasporto, imballo, assicurativi, etc..., ad esclusione dell'IVA.

Le specifiche generali, ove applicabili, sono le seguenti:

- completezza: le attrezzature devono essere fornite complete di ogni parte, con adeguata dotazione di accessori, per il regolare e sicuro funzionamento;
- massima operatività del sistema, intesa in termini di massima operatività, di semplicità di utilizzo e di intuitività ed immediatezza dei comandi e delle indicazioni/allarmi visivi ed acustici, non a scapito, si intende, delle prestazioni e della disponibilità di funzioni avanzate; infine, intesa ancora in termini di congruità degli ingombri e dei pesi;
- massima standardizzazione: con particolare riferimento alla componentistica;
- sicurezza: i sistemi devono possedere tutti gli accorgimenti utili per scongiurare danni all'operatore ed al paziente anche in caso di erroneo utilizzo e programmazione; il software deve essere garantito scevro da errori che compromettano l'analisi ed il corretto riconoscimento degli eventi;
- insensibilità ai problemi di continuità di rete: i sistemi, ed in particolare le parti a microprocessore, non devono deteriorarsi o perdere le proprie caratteristiche di affidabilità e sicurezza in caso di mancanza di alimentazione elettrica di rete (o altra alimentazione) per guasti o black out, oppure in presenza di disturbi di linea (picchi, radiofrequenza, ampie variazioni di tensione); con particolare riferimento ai disturbi eventualmente derivanti dall'uso contemporaneo nella S.C. di altre attrezzature o di condizionamento dell'aria.
- componenti, installazione e/o gestione che consentano misure di "green economy", minor impatto sull'ambiente e sulla salute (e.g. minor quantità, o miglior qualità di rifiuti) ed il contenimento del consumo di risorse, con particolare riferimento al consumo diretto o indiretto di energia elettrica, alla dispersione di calore, al consumo diretto o indiretto d'acqua potabile, ecc.

La fornitura è da intendersi completa:

- di manuali o istruzioni d'uso in italiano
- dell'addestramento all'uso del personale utilizzatore.

Tutti i dispositivi offerti devono essere conformi alla legislazione vigente.

Dovrà essere prodotta copia della dichiarazione di conformità alle direttive comunitarie applicabili del fabbricante che attesti con chiarezza la corrispondenza del prodotto alla direttiva e in cui deve essere chiaramente specificato:

- che la dichiarazione è riferita allo specifico modello offerto,
- le norme tecniche di riferimento,
- la destinazione d'uso definita dal fabbricante.

La Ditta Partecipante deve inoltre indicare per tutti i dispositivi offerti, se del caso, la rispondenza alle eventuali norme tecniche armonizzate applicabili e relative norme tecniche nazionali di recepimento e, qualora non rispettate, le alternative adottate dal fabbricante per soddisfare i requisiti essenziali in materia di salute e sicurezza stabiliti nella direttiva di settore.

Ove la conformità alle norme tecniche indicate non sia garantita, la Ditta Partecipante deve indicare quali sono i punti delle norme tecniche non rispettati.

Dovrà essere fornita copia della dichiarazione di conformità alle norme tecniche e particolari (se applicabili).

La fornitura deve inoltre comprendere:

- garanzia di almeno 24 mesi su tutte le apparecchiature e i dispositivi offerti

5. TERMINI DI CONSEGNA

La consegna dei prodotti deve avvenire presso A.O.U. San Luigi Gonzaga, Regione Gonzole n. 10, Orbassano (TO), all'interno dei locali o dei magazzini indicati nel contratto o nell'ordine.

La consegna dei prodotti deve essere la più sollecita possibile, e comunque non superiore a 30 gg solari dalla data dell'ordine, con le modalità qui indicate. In ogni caso è richiesta la consegna in tempo utile per il collaudo tassativo entro il 30/06/2026.

Il soggetto fornitore deve obbligatoriamente consegnare attrezzature e componenti nuove di fabbrica e nella versione corrispondente all'offerta; nel caso siano state introdotte innovazioni, il soggetto fornitore è obbligato a darne tempestiva comunicazione all'Azienda Ospedaliera e deve offrire l'attrezzatura innovata senza maggiori oneri. L'Azienda Ospedaliera si riserva il diritto di valutare a proprio insindacabile giudizio se accettare le innovazioni migliorative offerte a parità di condizioni economiche o pretendere la consegna con le stesse caratteristiche dell'offerta (o comunque caratteristiche non inferiori).

Il soggetto aggiudicatario deve comunicare immediatamente all'Azienda Sanitaria contraente le eventuali sospensioni o revoche delle autorizzazioni relative alla produzione/commercializzazione dei prodotti oggetto della fornitura.

I prodotti ed i relativi confezionamenti, etichette e fogli illustrativi devono essere conformi ai requisiti prescritti dalle leggi e regolamenti vigenti all'atto della fornitura, devono essere provvisti di marcatura di conformità CE relativa ai dispositivi medici.

I prodotti forniti dovranno avere al momento della consegna una validità residua non inferiore a $\frac{3}{4}$ della validità massima.

Per i materiali consumabili, è richiesta la consegna in unica soluzione all'avvio della fornitura, valida per tutta la durata dell'appalto pari a 24 mesi. Qualora tale modalità non sia compatibile con il periodo di validità massima dei prodotti, l'aggiudicatario si impegna a procedere con consegne frazionate senza oneri aggiuntivi per l'amministrazione.

L'imballo, il trasporto e la consegna franco reparto del materiale di consumo dovrà essere incluso ed avvenire entro una settimana lavorativa dall'ordine. Non è ammesso il minimo d'ordine.

I prodotti offerti devono corrispondere alle caratteristiche indicate nel disciplinare tecnico e allegati. Tutti i prodotti devono essere privi di lattice.

Il produttore del materiale fornito dovrà essere adeguatamente assicurato per eventuali danni a pazienti derivanti da difetti di produzione e/o di progettazione (rottura dei componenti per difetto di materiale o usura ingiustificata).

Tutte le spese di imballo, trasporto, scarico, montaggio, allontanamento dei materiali residui dopo il montaggio, allacciamento alle linee di alimentazione, messa in funzione, eventuale custodia dei materiali a piè d'opera, collaudo, sono a carico del soggetto fornitore.

Altresì, sono a carico del soggetto fornitore tutte le spese derivanti dal trasporto interno, anche nel caso in cui non fosse possibile l'utilizzo dei montacarichi/ascensori esistenti (per dimensioni o pesi eccedenti), o il normale accesso dei locali (passaggio inadeguato per il trasporto dei colli), fermo restando la facoltà di prevedere in offerta un'apposita quotazione.

È responsabilità del soggetto fornitore il trasporto dei beni presso i locali di destinazione; l'eventuale appoggio a magazzino in attesa del personale addetto al montaggio non esonera il soggetto fornitore da tali obblighi, né configura deposito ai sensi dell'art. 1766 del codice civile.

Al momento della consegna viene effettuato un controllo di sola rispondenza tra il numero dei colli con quanto indicato sul documento di trasporto.

I documenti di trasporto, che accompagnano la merce all'atto della consegna, dovranno contenere:

- gli estremi dell'ordine dell'Amministrazione;
- l'esatta indicazione delle quantità;
- la tipologia di prodotto.

La firma di qualunque documento di trasporto/consegna non costituisce in alcun modo certificazione di collaudo o liquidabilità delle spettanze.

Il soggetto fornitore è responsabile "in toto" per ogni problema insorgente da parte di eventuali ditte di trasporto a cui affiderà la consegna dei prodotti.

Eventuali danni derivanti dalle operazioni di trasporto e montaggio nell'ambito dell'Azienda Ospedaliero Universitaria saranno posti a totale e diretto carico del soggetto fornitore.

Sino al superamento del collaudo, non essendo stata certificata la presenza o il funzionamento di tutte le componenti, l'Azienda Ospedaliero Universitaria non risponde di furti o smarrimenti, fatte salve le responsabilità personali direttamente perseguibili.

Il periodo di garanzia dei beni soggetti a collaudo, inizia dalla data del collaudo favorevole, risultante da specifico verbale.

L'installazione di quanto oggetto di fornitura avverrà con le modalità ed i tempi indicati dall'Azienda, al fine di consentire il rispetto della normativa in materia di sicurezza sul lavoro, evitando il rischio di interferenze. La qualità dei prodotti forniti sarà accertata dalla competente struttura dell'Azienda; nel caso in cui la fornitura risultasse in tutto o in parte non conforme all'ordine e/o alle caratteristiche richieste e/o alla campionatura presentata o se per qualunque altra causa fosse inaccettabile, il fornitore sarà tenuto a proprie spese a ritirarla e sostituirla, nei termini stabiliti dall'AOU San Luigi Gonzaga,

con altra fornitura corrispondente per alla richiesta per quantità e qualità, fatto salvo il risarcimento di eventuali danni.

L'accettazione con presa in carico dei beni, non esonera dunque, il fornitore dalla responsabilità per eventuali vizi e difetti non rilevati o non rilevabili al momento dell'accettazione e accertati successivamente al momento dell'effettivo utilizzo presso le unità Operative.

Eventuali spese per analisi e verifiche qualitative saranno a carico dell'Impresa fornitrice qualora le caratteristiche rilevate risultassero difformi da quelle dichiarate.

Questa AOU si riserva altresì di procedere, in relazione alle proprie necessità, ad acquistare presso altre Imprese il materiale non consegnato con addebito al fornitore inadempiente delle maggiori spese, senza possibilità di opposizione e/o eccezione di sorta da parte del medesimo, oltre in ogni caso, l'eventuale risarcimento dei danni subiti.

I prodotti risultati a seguito di verifica, difettati o viziati, saranno tenuti (anche se tolti dagli imballaggi originali) a disposizione del fornitore che provvederà al loro ritiro ed alla loro sostituzione entro e non oltre 30 giorni solari dalla comunicazione di richiesta reso.

Per quanto riguarda eventuali difetti non riscontrabili al momento della consegna ma solamente in fase di utilizzo, l'aggiudicatario è tenuto a provvedere alla sostituzione di tali prodotti anche se tolti dal loro imballaggio originale senza pretendere alcun ulteriore onere.

In caso di reiterati episodi di mancata consegna, ritardo di consegna o dell'avvenuta consegna di prodotti non conformi alla documentazione tecnica dei prodotti offerti in gara, o di altri vizi tali da rendere i prodotti non idonei all'uso cui sono stati destinati, L'AOU San Luigi Gonzaga potrà, avvalendosi della facoltà di cui all'art. 1456 del C.C. e previa comunicazione scritta al fornitore, risolvere di diritto il contratto.

Anche gli imballaggi che presentassero difetti saranno rifiutati ed il fornitore dovrà provvedere, nei termini indicati nella richiesta, alla loro sostituzione.

6. COLLAUDO

Relativamente alle acquisizioni di beni da collaudare, gli oneri delle operazioni di installazione, messa in funzione e collaudo sono a carico del soggetto fornitore. Le verbalizzazioni della messa in funzione e del collaudo possono essere contestuali.

Qualunque operazione «consigliata» nei manuali di installazione ed utilizzo si intende obbligatoria per l'installazione a cura del soggetto fornitore.

Il periodo di garanzia dei beni soggetti a collaudo, inizia dalla data del collaudo favorevole, risultante da specifico verbale.

L'installazione di quanto oggetto di fornitura avverrà con le modalità ed i tempi indicati dall'Azienda, al fine di consentire il rispetto della normativa in materia di sicurezza sul lavoro, evitando il rischio di interferenze.

La qualità dei prodotti forniti sarà accertata dalla competente struttura dell'Azienda; nel caso in cui la fornitura risultasse in tutto o in parte non conforme all'ordine e/o alle caratteristiche richieste e/o alla campionatura presentata o se per qualunque altra causa fosse inaccettabile, il fornitore sarà tenuto a proprie spese a ritirarla e sostituirla, nei termini stabiliti dall'AOU San Luigi Gonzaga, con altra

fornitura corrispondente per alla richiesta per quantità e qualità, fatto salvo il risarcimento di eventuali danni.

L'accettazione con presa in carico dei beni, non esonera dunque, il fornitore dalla responsabilità per eventuali vizi e difetti non rilevati o non rilevabili al momento dell'accettazione e accertati successivamente al momento dell'effettivo utilizzo presso le unità Operative.

Eventuali spese per analisi e verifiche qualitative saranno a carico dell'Impresa fornitrice qualora le caratteristiche rilevate risultassero difformi da quelle dichiarate.

Questa AOU si riserva altresì di procedere, in relazione alle proprie necessità, ad acquistare presso altre Imprese il materiale non consegnato con addebito al fornitore inadempiente delle maggiori spese, senza possibilità di opposizione e/o eccezione di sorta da parte del medesimo, oltre in ogni caso, l'eventuale risarcimento dei danni subiti.

I prodotti risultati a seguito di verifica, difettati o viziati, saranno tenuti (anche se tolti dagli imballaggi originali) a disposizione del fornitore che provvederà al loro ritiro ed alla loro sostituzione entro e non oltre 30 giorni solari dalla comunicazione di richiesta reso.

Per quanto riguarda eventuali difetti non riscontrabili al momento della consegna ma solamente in fase di utilizzo, l'aggiudicatario è tenuto a provvedere alla sostituzione di tali prodotti anche se tolti dal loro imballaggio originale senza pretendere alcun ulteriore onere.

In caso di reiterati episodi di mancata consegna, ritardo di consegna o dell'avvenuta consegna di prodotti non conformi alla documentazione tecnica dei prodotti offerti in gara, o di altri vizi tali da rendere i prodotti non idonei all'uso cui sono stati destinati, L'AOU San Luigi Gonzaga potrà, avvalendosi della facoltà di cui all'art. 1456 del C.C. e previa comunicazione scritta al fornitore, risolvere di diritto il contratto.

Anche gli imballaggi che presentassero difetti saranno rifiutati ed il fornitore dovrà provvedere, nei termini indicati nella richiesta, alla loro sostituzione.

L'Azienda Ospedaliero Universitaria, tramite i suoi funzionari, si riserva il diritto di richiedere specifiche prove o di procedere direttamente a verifiche strumentali, oltreché richiedere modifiche all'installazione ed alla configurazione affinché la fornitura sia rispondente a quanto è stato offerto ed ordinato ed alle normative vigenti. Il soggetto fornitore dovrà consegnare a titolo gratuito quelle parti che non fossero state ordinate in quanto non descritte e non conteggiate nella quotazione complessiva e che pur tuttavia risultassero necessarie per garantirne il funzionamento.

Il verbale di collaudo, con la certificazione del superamento positivo dello stesso, dovrà essere redatto e firmato dal soggetto fornitore e controfirmato dai funzionari tecnici collaudatori incaricati dall'Azienda Ospedaliero Universitaria e da un referente del Servizio destinatario, a testimonianza dell'effettuazione delle verifiche tecniche e funzionali di competenza.

La firma dello specifico verbale da parte del rappresentante del soggetto fornitore certifica che l'attrezzatura è utilizzabile in piena sicurezza, dimostrandone il completo e corretto funzionamento, e che ne consente formalmente l'utilizzo.

Il collaudo si considera positivamente accettato alla data in cui tutte le eventuali prescrizioni dell'Azienda Ospedaliero Universitaria sono state eseguite dal soggetto fornitore e sia accertata la presenza e la conformità dell'ultima consegna.

La fornitura deve comprendere uno specifico corso di istruzione del personale, da concordarsi in fase di offerta, o in subordine al collaudo, con i funzionari collaudatori ed il Responsabili del Servizio.

Dovranno essere forniti i manuali d'uso in lingua italiana. Salvo casi particolari ed espressamente accettati, la fornitura deve comprendere anche il manuale di manutenzione (in lingua italiana o inglese) ed i principali schemi di montaggio, part-list, schemi elettrici.

È inoltre richiesto per il superamento delle verifiche di collaudo la consegna su scheda vidimata delle misure di dispersione elettrica ai sensi della normativa vigente.

Non saranno di norma accettate le misurazioni effettuate in fabbrica, se non come documentazione ulteriore consegnabile per completezza, in quanto ogni verifica deve essere effettuata nella sede definitiva di installazione.

7. GARANZIA

La fornitura di beni deve comprendere la garanzia onnicomprensiva presso l'installazione, per la durata dichiarata in offerta pari ad almeno 24 mesi dal superamento del collaudo; il soggetto fornitore si obbliga pertanto a riparare o sostituire le parti che si dimostrassero difettose o guaste, accollandosi tutti i costi derivanti (mano d'opera, viaggi e trasferte, parti di ricambio) senza alcuna franchigia, presso le sedi di installazione. Il soggetto fornitore risponde dei difetti di fabbrica, intendendosi come tali tutti i guasti o mal funzionamenti che non sono manifestamente causati da errato uso o dolo degli operatori o altre cause esterne. La riparazione gratuita deve comunque essere garantita nel periodo convenuto anche in caso di utilizzo di materiali di consumo non originali e nel caso di interventi di manutenzione da parte del personale dell'Azienda Ospedaliero Universitaria o di terzi da questa autorizzati, purché non sia manifesto che il guasto intervenuto sia stato causato dall'uso dei materiali citati o dagli interventi effettuati. Durante tale periodo è richiesto comunque di assicurare tempi di intervento inferiori a 24 ore solari. Per tempo di intervento si intende "il tempo che intercorre tra la chiamata e l'arrivo di un tecnico del servizio Assistenza con la strumentazione ed i ricambi ritenuti necessari, in base a quanto descritto dalla chiamata".

8. ASSISTENZA TECNICA E MANUTENZIONE

Durante il periodo di garanzia, il soggetto fornitore (come precedentemente definito) dovrà garantire il mantenimento in perfette condizioni di funzionamento delle apparecchiature oggetto della fornitura tramite servizio di manutenzione (comunemente denominato full-risk) con intervento garantito in 8 ore feriali lavorative, tutto incluso (compresa la fornitura di pezzi di ricambio e dei materiali e kit soggetti a sostituzione periodica, ad eccezione dei soli materiali di consumo monouso), con disponibilità alla fornitura di apparecchiatura sostitutiva (c.d. "muletto") in caso di fermo macchina prolungato, comprensivo di verifica di sicurezza elettrica (almeno una visita annuale) e manutenzione preventiva (calibrata in modo da garantire adeguata sicurezza ed efficienza funzionale) con almeno una visita annuale, e del servizio di aggiornamento ed upgrade.

Dovranno essere dunque comprese tutte quelle operazioni di manutenzione (es. preventiva) che sono previste o anche solo raccomandate dai manuali originali dei sistemi forniti.

Le componenti h/w, se necessario (guasto, irreperibilità dei componenti), dovranno essere sostituite aggiornate all'ultima versione disponibile, all'interno del costo dell'appalto; le componenti interdipendenti all'aggiornamento (h/w o s/w) dovranno essere corrispondentemente aggiornate, sempre all'interno del prezzo del contratto.

Sono da considerare inclusi anche eventuali aggiornamenti tecnologici del sistema (hardware/software) che riguardino revisioni strumentali o migliore qualità dei dispositivi e/o nuovi release di programma e che siano in grado di garantire un'evoluzione in termini di efficienza.

Si stabilisce contrattualmente un limite massimo ai tempi di fermo macchina totalizzati nell'arco dell'anno (compresi i fermi macchina per manutenzione programmata) nel valore di 10 giorni lavorativi; per fermo macchina si intende il periodo durante il quale la funzione globale, il servizio offerto, non sono garantiti per malfunzionamenti delle apparecchiature fornite nella loro globalità o in una sola parte.

Gli interventi di manutenzione correttiva dovranno essere richiesti formalmente mediante una "Richiesta di intervento", dell'Amministrazione al Fornitore. Per ogni intervento dovrà essere redatto un Rapporto Tecnico di Intervento sottoscritto da un incaricato dell'Amministrazione e dal tecnico del Fornitore, nella quale dovranno essere registrati: i dati identificativi dell'apparecchiatura, dell'attrezzatura e degli accessori, il numero progressivo della Richiesta di Intervento Tecnico assegnato dall'Amministrazione, il numero progressivo eventualmente assegnato dal Fornitore all'atto della ricezione della Richiesta di intervento, la descrizione del guasto/malfunzionamento, la data e l'ora di inizio e di fine intervento, la parti eventualmente sostituite, l'esito delle eventuali misure strumentali, dei controlli e delle verifiche di sicurezza effettuate. Una copia rimarrà al Fornitore ed una copia dovrà essere consegnata all'Amministrazione.

Tutte le parti di ricambio dovranno essere originali.

Il Fornitore dovrà garantire alle Amministrazioni la loro reperibilità e fornitura per un periodo non inferiore a 10 (dieci) anni a decorrere dalla data di accettazione della fornitura.

A tutela dell'osservanza di tali condizioni l'Azienda Ospedaliero Universitaria si riserva di stabilire ed applicare, salvo casi di forza maggiore, per ogni giorno feriale di ritardo sull'intervento e di prolungamento del fermo macchina totalizzato, penali ai sensi del presente capitolato speciale di gara.

Quanto sopra si intende valido sia nel caso in cui il soggetto che fornirà assistenza durante il periodo contrattuale e post-contrattuale coincida con il soggetto fornitore, sia nel caso in cui sia distinto; in tal caso il soggetto fornitore rimane comunque responsabile dell'adempimento delle condizioni contrattuali di seguito stabilite, fermo restando l'eventualità che i futuri contratti siano definiti con il differente soggetto di assistenza competente.

Agli offerenti in caso di sospensione o annullamento della procedura non spetterà alcun risarcimento od indennizzo.

20. DIRETTORE DI ESECUZIONE DEL CONTRATTO

Ai sensi di quanto previsto dall'art. 114 del D. Lgs. n. 36/2023 l'A.O.U. San Luigi Gonzaga di Orbassano verifica il regolare andamento dell'esecuzione del contratto attraverso il Direttore dell'Esecuzione del Contratto (DEC), individuato in fase di aggiudicazione.

21. PENALI

Ai sensi dell'Art. 126, co. 1, del D.lgs. 36/2023, in caso di reiterate mancanze nel rispetto del contratto in essere, fatto salvo il diritto dell'Azienda Ospedaliera alla risoluzione del contratto (a mero titolo esemplificativo in caso di collaudo con esito negativo) ed alle conseguenze ad essa relative, si potrà applicare, previa formale ingiunzione ad adempiere, una penale.

La penale si applicherà nel caso in cui il soggetto fornitore:

- non consegna, installi o metta in funzione i beni e le attrezzature nel rispetto e nei termini previsti;
- non provveda al ritiro ed alla sostituzione dei prodotti di cui sia stata accertata la non rispondenza ai requisiti richiesti;
- non osservi le prescrizioni contrattuali o non adempia puntualmente alle stesse, pur non comportando tale inadempimento per la sua gravità l'immediata risoluzione del contratto, quali quelle per il superamento del collaudo ed in caso di omissione o ritardo nell'intervento di manutenzione a partire dalla messa in funzione e durante il periodo di garanzia.

Le penali sono commisurate al numero di giorni di ritardo e proporzionali all'importo contrattuale o alle singole prestazioni interessate dal ritardo, in relazione all'entità delle conseguenze che ne derivano.

In conformità alle disposizioni introdotte dal decreto legislativo 31 dicembre 2024, n. 209, la penale giornaliera viene applicata **in misura compresa tra lo 0,5‰ (per mille) e l'1,5‰ (per mille) dell'ammontare netto contrattuale**: la misura effettiva della penale sarà determinata dalla stazione appaltante tenendo conto della gravità del ritardo e dell'impatto sull'interesse pubblico sotteso all'appalto.

Le penali non possono comunque superare complessivamente il 10% dell'ammontare netto contrattuale (soglia oltre la quale l'Azienda Ospedaliera potrà risolvere il contratto per grave inadempimento), e la loro applicazione avviene **previa contestazione formale** da parte della stazione appaltante, con concessione all'appaltatore di un termine per controdedurre ai sensi dell'Art. 97 del Codice.

In caso di rinuncia in corso di fornitura da parte del fornitore, l'Azienda Ospedaliero Universitaria avrà diritto di provvedere come meglio crederà alla fornitura medesima con obbligo dell'appaltatore decaduto di risarcire i danni economici derivanti dalla rinuncia.

Resta ferma la risarcibilità dell'ulteriore danno subito dall'Azienda Ospedaliera a causa del disservizio verificatosi.

L'applicazione delle penali non solleva in alcun modo la ditta esecutrice dall'obbligo di procedere all'eliminazione degli inconvenienti rilevati e non impedisce l'applicazione delle clausole di risoluzione contrattuale.

In caso di collaudo con esito negativo rimarranno a carico del soggetto fornitore tutti i materiali forniti per il funzionamento (nel periodo intercorrente tra messa in funzione e collaudo), salvo addebito di maggiori danni, quali quelli derivanti dal mancato funzionamento diagnostico o terapeutico dell'apparecchiatura.

22. FATTURAZIONE - PAGAMENTO DEL CORRISPETTIVO

Effettuata regolarmente la consegna, l'Appaltatore provvede all'emissione di fatture. La fattura, oltre ad essere obbligatoriamente emessa in formato elettronico, deve anche presentare il c.d. meccanismo denominato "split payment", ai sensi dell'art. 17-ter DPR 633/72 e cioè con l'evidenza dell'IVA, con l'annotazione "scissione dei pagamenti" ai sensi del succitato art. 17-ter.
